

## WOMEN, POLICY, AND CLIMATE-RESILIENT AGRICULTURE: AN INDIAN PERSPECTIVE

REETA CHOUDHARY\*

---

*India's climate-affected agriculture faces policy gaps that limit women farmers' access to climate-smart practices. This paper identifies the barriers which limit the accessibility of women farmers' to information and extension services, hindering the broader adoption of climate-smart agriculture. It reviews the agriculture and climate policies and attempts to introduce suggestions for designing gender-responsive policies to promote adoption of CSA practices.*
