

AWARENESS AND ADOPTION OF FISH PRODUCTION TECHNOLOGIES IN AND AROUND BANGLADESH SUNDARBANS

PRABAL BARUA^{1*}, SOMNATH CHAKRABORTY²,
UPASANA GHOSH² AND CHAITI BARUA³

Bangladesh is highly suitable country for aquaculture because of her wide water body. The present study was designed to ascertain the socio-economic characteristics of the farmers, determine available technologies on fish production, awareness and adoption of the available technologies of aquafarmers from in and around Bangladesh Sundarbans. Purposive sampling procedure was used to select 180 respondents for the study. The result shows that most of the respondents aware of the technologies of aquaculture practices in and around Bangladesh Sundarbans
