

SAMARENDRA KUMAR MITRA – A DOYEN IN COMPUTER REALMS : A LIFE-SKETCH

DEVAPRASANNA SINHA*

Professor Samarendra Kumar Mitra built the first Electronic Analogue Computer at the Indian Statistical Institute (ISI) in India in the mid-fifties of the last century. He was the Founder of the Electronics Division in ISI. The first computer in India, HEC_2M, was installed during his stay there. The present article is an attempt to highlight Professor Mitra's significant works and contributions in the field. It is, designed to be a belated tribute to him on the completion of his birth centenary in 2016.
