

NEEM (*AZADIRACHTA INDICA*) - A NATURAL APPROACH TO TREATING ORAL DISEASES

Natural products offer a rich source of structurally diverse substances with a wide range of biological activities. Neem, Tulsi, Turmeric, Ginger, Brahmi, Guava, Aloe Vera and their products have been used in dental and medical practice for thousands of years and have become even more popular today due to their high antimicrobial activity, biocompatibility, anti-inflammatory and anti-oxidant properties and also no bacterial resistance has been documented. This paper describes traditional uses of neem, presence of biochemical and its clinical studies on different system along with oral cavity and safety evaluation of uses of neem.
