

NARCOANALYSIS IN CRIME INVESTIGATION-A HUMAN APPROACH

S. L. VAYA* AND VINOD GOYAL**

Criminality in the mind of criminals is associated with resistance that needs humanitarian approach. Truth serum along with the lie detector and other new technique for evaluating human testimony has become key features in the field of crime investigation and judiciary. Truth serum or Narco analysis is widely used by the medical fraternity all over the world including India in mental health setup, but the appreciation of same technique in the field of criminal investigation is still at the stage of infancy.
