

DNA EVIDENCE IN JUSTICE DELIVERY SYSTEM OF INDIA

A. K. SHARMA*

DNA Profiling or DNA typing has proven to be the most powerful tool for identification of the source of biological specimen. It has tremendously helped in solving murders, sexual assaults and many other heinous crimes, which was not possible before the advent of this technology. All over the world, DNA evidence has withstood legal scrutiny and revolutionized crime investigation. This article deals with the admissibility and evaluation of DNA evidence in the Indian courts.
