

ROLE OF SCIENCE CLUBS IN DEVELOPING STEM SKILL AND KNOWLEDGE

BRINDER KUMAR TYAGI¹, R. SREEDHER²
R. GOPICHANDRAN³

The paper defines some forms and functions of Science Clubs as robust platform for developing STEM interest, skill and knowledge. This could be achieved through decentralized outreach approaches to deliver in response to several local considerations, including socio – economic and cultural diversity in India. An extended scope of three mutually re-enforcing objectives for science clubs are presented to set the context for strengthening the roles of science clubs.
